

Code of Ethics to check malpractices and plagiarism in Research

Jagannath Barooah College is committed to promote and maintain high standards of honesty and accountability in the conduct of academic research and is keen to implant and endorse the culture of honesty and transparency in all its institutional activities. The institute strives to preserve academic honor and integrity by repudiating all forms of academic and intellectual dishonesty, including plagiarism. The content anti-plagiarism software will check every thesis for ensuring originality. Every Research Scholar of the institute pursuing degree has to check his/her final project report using plagiarism detector before submission.

ETHICAL CONCERN IN RESEARCH

Plagiarism

Authors who present the words, data or ideas of others with the insinuation that they own the same, without ascription in a form suitable for the medium of presentation are committing theft of intellectual property and may be guilty of plagiarism and thus of research misconduct.

Misuse of Data

Any intentional or irresponsible disregard for the truth in reporting observations may be considered to be an act of research misconduct.

Ownership of and Access to Data

The data relating to a research publication should be made available to the others upon request after the research results have been published or accepted for publication.

Criteria for Authorship

The author should emphasize proper acknowledgment in the presentation and the publication of manuscripts. Authorship should be awarded to those persons who have made an original and significant contribution to the conceptualization, design, execution, and interpretation of the published work. It is inappropriate and unacceptable to submit extracts from research to more than one publisher unless such action has been approved by the editors of each publication or multiple submissions is the acceptable standard practice in the specific discipline. In the complete report on the work in question, reference should be made to preliminary extracts from work that has already been published.
